USAGE RULES

No image or background should ever compete with the mark's clarity, and it must always appear in an approved color combination.

Do

- ✓ Keep clear space equal to the height of the cube icon.
- ✓ Use full color on white or photography with a dark overlay.
- ✓ Use the white mono mark on coral, purple, blue, or busy photos.
- ✓ Scale proportionally — never stretch.

Don't

- ✗ Don't recolor the cube or crane outside the brand palette.
- ✗ Don't place the full-color mark on low-contrast backgrounds.
- ✗ Don't add shadows, outlines, or effects to the mark.
- ✗ Don't rotate, skew, or crowd the logo.
